From concrete, carpentry, and HVAC to plumbing, drywall, and any process in-between, Majestic is committed to protecting those who work in the construction industry. We intensify safety standards by providing reliable and quality personal protective equipment for the roughest work conditions.

# CEMENT & CONCRETE

## APPLICATIONS

Jointing, floating, troweling, and finishing

Mixing, transporting and handling concrete

Block manufacturing

## USER NEEDS

Concrete workers expect hand protection to withstand the highly **abrasive** properties of concrete by protecting against **cuts, scrapes**, and **punctures** while providing **durability** and **grip**.

### 3362R

Black PVC glove.  
Rough finish.  
Interlock lining.  
12" gauntlet cuff.  
Chemical resistant.

### 3237

SuperDex knit.  
Double dipped nitrile coating for great dry and oily grip.  
Embossed palm to deviate oil and liquids from palm.  
Protection from oil to knit wrist.  
Comfortable fit.

### 35-6375

KorPlex knit  
Double dipped nitrile coating for great dry and oily grip.  
Protection from oil to knit wrist.  
Excellent fit to protection properties.  
CE 3 / ANSI A2 cut resistance.

### 3702A

High performance double dipped PVC Glove.  
Rough finish for exceptional grip in wet conditions.  
Interlock liner.  
Extremely pliable.

# MASONRY

## APPLICATIONS

Fabricating, altering, and maintaining masonry structures

Molding, laying blocks or bricks and mixing cement

Cutting or breaking bricks and concrete

## USER NEEDS

Mason workers require hand protection from **abrasion, cuts, scrapes,** and **punctures** as well as providing **extreme dexterity** and **grip**.

### 35-7650

KorPlex knit.  
Premium crinkle latex palm for superior durability.  
Double-dip thumb crotch.  
High cut resistance and grip.  
CE F / ANSI A7 cut resistance.

### 3385A

Cotton/polyester seamless knit shell.  
Crinkle latex palm for increased wet and dry grip.  
All purpose, comfortable, and versatile work glove.  
Excellent wear resistance and flexibility.

### 35-1550

KorPlex knit.  
Crinkle latex palm for industrial applications.  
Cool and comfortable fit  
CE 5 / ANSI A4 cut resistance

### 51-290

OXXA Knit.  
Superior nitrile palm coating.  
Maximum grip and abrasion resistance.  
Cool and comfortable fit.

# ROOFING

## APPLICATIONS

Asphalt shingles & metal roofing

Hand & power tool operation

Stripping & installation

## USER NEEDS

Users require **lightweight, durable** gloves that protect against **sharp objects, rough materials** or **glass** while providing **dexterity** and **comfort**.

### 3385A

Cotton/polyester seamless knit shell.  
Crinkle latex palm for increased wet and dry grip.  
All purpose, comfortable, and versatile work glove.  
Excellent wear resistance and flexibility.

### 3378BK

SuperDex knit  
Latex palm formulated to provide maximum grip.  
Durable and flexible.  
Cool and comfortable.

### 1510B

B-grade cowhide grain leather.  
Keystone thumb.  
Gunn cut.  
Shirred back.  
Excellent abrasion resistance.

### 35-7465

KorPlex knit.  
Premium breathable foam nitrile palm coating.  
High cut resistance & reinforced thumb crotch.  
Touch screen capable.  
CE 5 / ANSI A4 cut resistance.

# CARPENTRY

## APPLICATIONS

Hand & power tool operation

Framing, footing, trimming & cutting

Installing structures & fixtures

## USER NEEDS

From cutting wood, to framing, and installing structures or fixtures, users require protection against **debris, cuts, abrasions, punctures,** and **hand fatigue** while maintaining **dexterity** and **absolute grip**.

### 51-290

OXXA Knit.  
Superior nitrile palm coating.  
Maximum grip and abrasion resistance.  
Cool and comfortable fit.

### 1510B

B-grade cowhide grain leather.  
Keystone thumb.  
Gunn cut.  
Shirred back.  
Excellent abrasion resistance.

### 35-7465

KorPlex knit.  
Premium breathable foam nitrile palm coating.  
High cut resistance & reinforced thumb crotch.  
Touch screen capable.  
CE 5 / ANSI A4 cut resistance.

### 2127HY

Neoprene stretch back.  
X20 Armor Skin™ synthetic leather double stitch palm.  
Touch screen index finger and thumb.  
Reinforced finger guards.  
Neoprene wrist with velcro closure.

# GLAZIER

## APPLICATIONS

Cutting, grinding, and drilling glass

Applying adhesives, sealants and caulks

Manufacturing, installing, removing, transporting, and recycling sharp glass products

## USER NEEDS

Glaziers require **extreme grip** as well as protection against **cuts** and **lacerations** from sharp edges and glass. In some cases **light contact heat resistance** may be required.

Low heat applications only

### 35-7650

KorPlex knit.  
Premium crinkle latex palm for superior durability.  
Double-dip thumb crotch.  
High cut resistance and grip.  
CE F / ANSI A7 cut resistance.

### 35-7465

KorPlex knit.  
Premium breathable foam nitrile palm coating.  
High cut resistance & reinforced thumb crotch.  
Touch screen capable.  
CE 5 / ANSI A4 cut resistance.

### 35-1550

KorPlex knit.  
Crinkle latex palm for industrial applications.  
Cool and comfortable fit  
CE 5 / ANSI A4 cut resistance

### 1800

Double tanned, extra heavy duty leather.  
Kevlar® sewn for added strength.  
Side split cowhide palm.  
Canvas back.  
Knuckle strap and shirred back.

# PLUMBING & FITTING

## APPLICATIONS

Installing and repairing plumbing systems

Servicing water supplies, waste disposals, and heating systems

Hauling supplies, cutting, and assembling materials

## USER NEEDS

Plumbers expect hand protection that offers extreme **dexterity, grip in wet conditions**, and protection against **sharp metal edges**, and **hand fatigue**.

### 3237

SuperDex knit.  
Double dipped nitrile coating for great dry and oily grip.  
Embossed palm to deviate oil and liquids from palm.  
Protection from oil and liquid to knit wrist.  
Comfortable fit.

### 51-290

OXXA Knit.  
Superior nitrile palm coating.  
Maximum grip and abrasion resistance.  
Cool and comfortable fit.

### 31-1365

Lightweight Kevlar® knit.  
Fantastic grip, dexterity and wear resistance.  
Touch screen capable.  
Exceptional micro foam nitrile palm coating.  
CE D / ANSI A4 cut resistance.

### 3401

Traditional brown jersey glove.  
8 oz. soft cotton.  
Comfortable fit.  
Knit wrist.

# ELECTRICIAN

## APPLICATIONS

Construct and fabricate parts

Repair or replace wiring, equipment, and fixtures, using hand & power tools

Install and maintain factory machinery

## USER NEEDS

Electrician safety requires protection against **cuts**, **punctures**, **light contact heat**, and **abrasion**, while providing exceptional **tactility**, **grip**, and **fit**.

### 31-1365

Lightweight Kevlar® knit.  
 Fantastic grip, dexterity and wear resistance.  
 Touch screen capable.  
 Exceptional micro foam nitrile palm coating.  
 CE D / ANSI A4 cut resistance.

### 3437

Ring spun Dyneema® Diamond knit.  
 PU coated palm for excellent dexterity.  
 High cut resistance.  
 Maximum fit, feel and comfort.  
 CE 5 / ANSI A3 cut resistance.

### 1510

Top A-grade cowhide grain leather.  
 Keystone thumb.  
 Gunn cut.  
 Excellent abrasion resistance.  
 Tough, double stitched leather hem.

### 1555WRK

Oil and water resistant goatskin driver.  
 Extremely comfortable & durable.  
 Kevlar® liner provides excellent cut protection.  
 PPE Level 3 arc resistance, ATPV 36 CAL/CM²  
 CE 5 / ANSI A4 cut resistance.

# WELDING

## APPLICATIONS

MIG, TIG, & Stick welding

De-burring and grinding metal

Testing and inspecting welded surfaces and structures

## USER NEEDS

Welders gloves protect against **heat, burns, sparks, cuts, scratches,** and **arc** while providing **durability, abrasion resistance,** and **grip.**

### 2100

«DUPONT»  
**Kevlar**

Side split leather welding glove.  
Treated with Heatshield to make leather fire resistant.  
Sewn with Kevlar®.  
Padded flame resistant sock lining in palm and back.  
Welted in all stress areas.

### 1514BLT

«DUPONT»  
**Kevlar**

Blue side split leather welding glove.  
Treated with Heatshield to make leather fire resistant.  
Sewn with Kevlar®.  
Performance thumb with reinforced seams.  
Doubled palm & thumb crotch protection.

### 3507G

«DUPONT»  
**Kevlar**

Pigskin leather welders glove  
Reinforced keystone thumb  
Seamless index finger  
5" split gauntlet cuff  
Sewn with Kevlar®

### 3503G

Grain cowhide leather palm TIG welding glove.  
Heavy duty split cowhide leather back.  
Straight thumb.  
5" split leather gauntlet cuff.  
Gunn cut.

# BOILERMAKING

## APPLICATIONS

Assemble boiler tanks by welding

Clean vats with scrapers, wire brushes, and cleaning solvents

Replace or repair broken parts using hand and power tools

## USER NEEDS

Boilermaking requires protection against **heat, cuts, punctures, and skin irritation.**

Low heat applications only

### 1514BLT

DU PONT  
**Kevlar**

Blue side split leather welding glove.  
Treated with Heatshield to make leather fire resistant.  
Sewn with Kevlar®  
Performance thumb with reinforced seams.  
Doubled palm & thumb crotch protection.

### 1510

Top A-grade cowhide grain leather.  
Keystone thumb.  
Gunn cut.  
Excellent abrasion resistance.  
Tough, double stitched leather hem.

### 1800

DU PONT  
**Kevlar**

Double tanned, extra heavy duty leather.  
Kevlar® sewn for added strength.  
Side split cowhide palm.  
Canvas back.  
Knuckle strap and shirred back.

### 3401

Traditional brown jersey glove.  
8 oz. soft cotton.  
Comfortable fit.  
Knit wrist.

# INSULATION & DRYWALL

## APPLICATIONS

Installing, hauling, and repairing drywall and insulation

Cutting, sanding & plastering

Hand & power tool operation

## USER NEEDS

Users require protection against **cuts, fiberglass, abrasion, and drywall materials & compounds** while providing tremendous **grip** and **dexterity**.

### 35-7465

KorPlex knit.  
Premium breathable foam nitrile palm coating.  
High cut resistance & reinforced thumb crotch.  
Touch screen capable.  
CE 5 / ANSI A4 cut resistance.

### 3437

Ring spun Dyneema® Diamond knit.  
PU coated palm for excellent dexterity.  
High cut resistance.  
Maximum fit, feel and comfort.  
CE 5 / ANSI A3 cut resistance.

### 37-3435

Lightweight Dyneema® Diamond knit.  
White PU coated palm.  
Maximum fit, feel, and comfort.  
Cool and comfortable fit.  
CE 4 / ANSI A3 cut resistance.

### 37-1300

Dyneema® Diamond knit.  
Extremely lightweight 18-gauge knit.  
PU coated palm for excellent dexterity.  
Maximum fit, feel and comfort.  
CE 3 / ANSI A2 cut resistance.

# PAINTING

## APPLICATIONS

Sanding & cleaning various surfaces

Application of paint and coating by hand or paint gun

Mixing & thinning

## USER NEEDS

Painters require gloves that provide a protective **barrier to chemicals** in paints while maintaining **exceptional grip** and **dexterity**.

### 3276AK

Super grip disposable gloves. Powder free nitrile glove with fish scale palm pattern. Excellent grip in dry and oily environments. Strong for improved life. 6 MIL and chemical resistant.

---

### 3276AO

Super grip disposable gloves. Powder free nitrile glove with fish scale palm pattern. Excellent grip in dry and oily environments. Strong for improved life. 6 MIL and chemical resistant.

---

### 3273

Industrial grade blue nitrile disposable gloves. Textured for added grip. 4 MIL and powder free. FFDCA and USDA compliant. Standard length with rolled cuff.

---

### 3273BK

Industrial grade black nitrile disposable gloves. Textured for added grip. 4 MIL and powder free. FFDCA and USDA compliant. Standard length with rolled cuff.

# LANDSCAPING

## APPLICATIONS

Soil preparation and grading

Hardscape construction and irrigation systems

Planting, tree care, and landscape maintenance

## USER NEEDS

Durable, dexterous landscaping gloves protect hands from blisters, splinters, scratches, cuts, and punctures from tools, rough landscaping materials, and plants.

### 3385A

Cotton/polyester seamless knit shell. Crinkle latex palm for increased wet and dry grip. All purpose, comfortable, and versatile work glove. Excellent wear resistance and flexibility.

### 3237

SuperDex knit. Double dipped nitrile coating for great dry and oily grip. Embossed palm to deviate oil and liquids from palm. Protection from oil and liquid to knit wrist. Comfortable fit.

### 3228

SuperDex knit. Micro foam nitrile palm coating for great dry and oily grip. Great grip and abrasion resistance. Cool and comfortable fit.

### 51-290

OXXA Knit. Superior nitrile palm coating. Maximum grip and abrasion resistance. Cool and comfortable fit.

# MULTI-PROCESS

## APPLICATIONS

From the roadside to the jobsite and everywhere in between, workers in the construction industry encounter endless hazards in the work they perform. However, many sources of injury can be prevented by selecting the right personal protective equipment. Majestic is dedicated to intensifying your safety standards and protecting what matters most.

From cuts & lacerations, to falling objects, chemicals, sparks, and low visibility, our multi-process section of PPE will equip you with protection from a variety of general hazards.

### 51-290

OXXA Knit.  
Superior nitrile palm coating.  
Maximum grip and abrasion resistance.  
Cool and comfortable fit.

### 33-4406

High visibility knit.  
PU coated palm for excellent dexterity.  
Durable and flexible.  
Long knit cuff for a more secure fit.  
CE D / ANSI A4 cut resistance.

### 3270

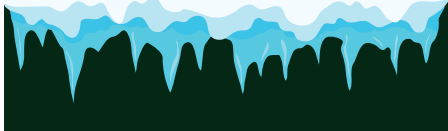

SuperDex knit.  
Gray nitrile palm coating.  
Excellent wear resistance and tactility.  
Puncture and abrasion resistance.  
Machine washable.

### 2139BK

Armor Skin™ synthetic leather palm.  
PVC reinforced double padded palm and fingertips.  
Black stretch knit back.  
Neoprene knuckle.

# MULTI-PROCESS

## APPLICATIONS

Many of our popular glove lines are also available in a lined, insulated version for cold weather use.

The purpose of our liners is to trap air between your hand and the outside cold, then reflecting back the body's radiant heat. This air acts as a thermal buffer, keeping the warmth inside the glove.

Choosing the best liner depends on the level of comfort and warmth you require, the outside temperature, fit & feel, activity level, and the style of glove.

### 3398DLO

15-gauge nylon shell.  
Sandy latex palm over closed cell latex dip.  
10-gauge brushed acrylic liner.  
Waterproof winter/freezer glove.  
Exceptional liquid resistance and grip.

### 3398DNY

15-gauge nylon shell.  
Sandy nitrile palm over closed cell nitrile dip.  
10-gauge brushed acrylic liner.  
Waterproof winter/freezer glove.  
Exceptional liquid resistance and grip.

### 3396HY

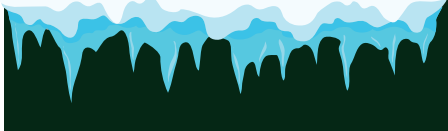

Heavyweight napped terry knit.  
Foam latex palm coating for excellent grip.  
Acrylic liner.  
Also available in orange and black.  
CE 2 / ANSI A2 cut resistance.

### 3228HYT

High visibility SuperDex Knit.  
Foam nitrile palm coating.  
Insulated brushed 10-gauge acrylic liner.  
Ultimate dexterity and grip.

# MULTI-PROCESS

## APPLICATIONS

Many of our popular glove lines are also available in a lined, insulated version for cold weather use.

The purpose of our liners is to trap air between your hand and the outside cold, then reflecting back the body's radiant heat. This air acts as a thermal buffer, keeping the warmth inside the glove.

Choosing the best liner depends on the level of comfort and warmth you require, the outside temperature, fit & feel, activity level, and the style of glove.

### 35-1585

KorPlex knit.  
Sandy latex palm over ¾ flat latex dip.  
One piece shell and brushed acrylic liner.  
Exceptional liquid resistance and grip.  
CE D / ANSI A5 cut resistance.

### 34-1570

Heavyweight Dyneema® knit.  
Latex coated palm for added grip.  
Knitted with nylon and acrylic for extra warmth.  
Excellent protection from moisture.  
CE 5 / ANSI A4 cut resistance.

### 2145BKH

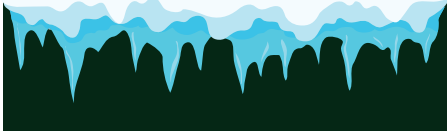

Armor Skin™ synthetic leather palm with padding.  
100 gram Heatlok™ lined.  
Waterproof.  
Neoprene knuckle and silver reflective piping.  
Black knit back.

### 2152TW

A-grade pigskin leather palm.  
40 gram Thinsulate® lined.  
Waterproof membrane.  
Neoprene knuckle.  
Blue stretch knit back.

# MULTI-PROCESS

Choosing the best liner depends on the level of comfort and warmth you require, the outside temperature, fit & feel, activity level, and the style of glove.

### 1511T

*Thinsulate*  
INSULATION

A-grade premium cowhide grain leather.  
100 gram Thinsulate® lining.  
Keystone thumb.  
Excellent abrasion resistance.

### 1600TW

*Thinsulate*  
INSULATION

Blue premium split cowhide leather palm.  
100 gram Thinsulate® lining.  
Internal bladder to make glove waterproof.  
Wing thumb.  
Safety cuff.

### 3430

Our best glove liner.  
13-gauge knit Dupont Themalite® hollow core fiber.  
Wicks moisture from skin for improved warmth.  
Also available in blue: 3430B

### 3703

Winter lined PVC double coated glove.  
13-gauge knit shell with removable thermal liner.  
Special compound stays soft in extreme temperatures.  
Rough finish for excellent wet grip.

# MULTI-PROCESS

## PROTECTIVE EYEWEAR

Majestic's protective eyewear provides the safety, comfort, and fit you need to get the job done!

All of Majestic's protective eyewear include these essential features:

**Meets ANSI Z87.1+:** The American National Standard Institute establishes performance criteria and testing requirements for eye protection. Majestic's protective eyewear meets and exceeds these established standards.

**99.9% UVA/UVB Protection:** Ultra violet light can cause severe eye damage over time. Majestic's protective eyewear blocks 99.9% of harmful UVA and UVB rays.

**Hard Coated:** Properly coated lenses can have a significant impact on the performance and clarity of protective eyewear. Majestic's hard coated, anti-scratch treatment helps protect lenses from damage and maintains the clarity you expect from your eyewear.

### 85-1100

#### Crosswind Safety Glasses

Lightweight wraparound frame with anti-scratch lens. Bulk packaging. Available in anti-fog and multiple colors.

.....

### 85-2010

#### Wrecker Safety Glasses

Wraparound frame with anti-scratch lens. Soft padded nose piece. Includes adjustable neck cord. Available in EN Premium anti-fog and multiple colors.

.....

### 85-7015

#### Riot Shield Safety Glasses

Wraparound frame with anti-scratch lens. Quick release interchangeable temples with elastic strap. EN Premium anti-fog treatment. Available in multiple colors.

.....

### 85-7010CLR

#### Sentry Lite Safety Glasses

Small over-the-glass. Anti-scratch lens. Clear lens. Bulk packaging.

# MULTI-PROCESS

## HARD HATS

Majestic's hard hats are manufactured in the USA and are made of high-density polyethylene (HDPE) to provide ultimate head and impact protection in the industrial work place. With vertical height adjustment, a comfortable brow pad, and accessory slots for attaching a variety of accessories, Majestic continues to intensify your safety standards.

The American Worker ID Emergency Tag from Majestic enables workers to securely carry their emergency ID. In an accident, the system provides first responders and paramedics instant access to potential lifesaving information and allows emergency contacts to be quickly notified of a situation 24/7.

### 87-1105

Cap style hard hat with 4-point suspension. Provides head and impact protection in the workplace. Tough, lightweight, and low-profile. Meets ANSI/ISEA Z89.1, Type I, Class E&G requirements. Available in yellow, orange, blue, white, and red.

### 87-1155

Cap style hard hat with 6-point suspension. Provides head and impact protection in the workplace. Tough, lightweight, and low-profile. Meets ANSI/ISEA Z89.1, Type I, Class E&G requirements. Available in yellow, orange, blue, white, and red.

### 87-1255

Full brim style hard hat with 6-point suspension. Provides head and impact protection in the workplace. Tough, lightweight, and low-profile. Meets ANSI/ISEA Z89.1, Type I, Class E&G requirements. Available in yellow, orange, blue, white, and red.

### 87-9000

In Case of Emergency (ICE) identification sticker. Strengthens safety and worker information records. Fully secure - security flap protects worker's information. 100% Waterproof. 3M® adhesive will not weaken or damage safety helmets.

# MULTI-PROCESS

## ANSI/ISEA 107-2015

Low visibility is a serious hazard for all workers who perform tasks near moving vehicles or equipment. High visibility apparel by Majestic boldly intensifies worker visibility and safety.

### Performance Standards

**Class 2** provides moderate protection with distance detection & identification, and moderate conspicuity performance. This reflective clothing is suggested for workers who are near heavy machinery or traffic between speeds of 25-50 mph.

**Class 3** offers the highest level of conspicuity with greater visibility to the wearer in both complex backgrounds and through a full range of body movements. This reflective clothing is suggested for workers who are near heavy machinery or traffic in excess of 50 mph.

## 75-3201/75-3202

ANSI CLASS 2 TYPE R

High visibility mesh safety vest.  
Excellent for applications requiring added visibility.  
2" reflective striping.  
One inside chest pocket and two inside waist pockets.  
Meets ANSI/ISEA 107-2015 Class 2, Type R Standard.

## 75-3239/75-3240

ANSI CLASS 2 TYPE R

High visibility mesh safety vest.  
Black bottom for areas that get the most soiled.  
Chainsaw reflective striping with DOT contrast.  
7 pockets, heavy duty zipper closure, and radio tabs.  
Meets ANSI/ISEA 107-2015 Class 2, Type R Standard.

## 75-3225/75-3226

ANSI CLASS 2 TYPE R

High visibility mesh two-tone vest.  
D-ring pass through.  
DOT striping with 3M® reflective.  
7 pockets, radio tabs, and reflective piping.  
Meets ANSI/ISEA 107-2015 Class 2, Type R Standard.

## 75-3307/75-3308

ANSI CLASS 3 TYPE R

High visibility polyester mesh vest.  
Tough duty and reinforced with heavy trim.  
2" reflective striping.  
8 pockets, snap front, and grommets for attaching tools.  
Meets ANSI/ISEA 107-2015 Class 3, Type R Standard.

# MULTI-PROCESS

## 75-5305/75-5306

ANSI CLASS 3 TYPE R

High visibility birdseye short sleeve T-shirt. Double waist 3M® stripes and vertical striping. Outstanding wicking ability. Left chest pocket. Meets ANSI/ISEA 107-2015 Class 3, Type R Standard.

## 75-5217/75-5218

ANSI CLASS 2 TYPE R

High visibility snag resistant shirt. Moisture wicking to keep workers cool and refreshed. Chainsaw reflective striping for breathability. Black bottom for areas that get the most soiled. Meets ANSI/ISEA 107-2015 Class 2, Type R Standard.

## 75-5331/75-5332

ANSI CLASS 3 TYPE R

High visibility heavy hooded sweatshirt. Teflon® fabric protector for added water resistance. Polyester lined for increased comfort. Black in most soiled areas and 2" reflective striping. Meets ANSI/ISEA 107-2015 Class 3, Type R Standard.

## 75-5335/75-5336

ANSI CLASS 3 TYPE R

High visibility quarter zip sweatshirt. Teflon® fabric protector for added water resistance. Fleece lined for increased comfort. Black in most soiled areas and 2" reflective striping. Meets ANSI/ISEA 107-2015 Class 3, Type R Standard.
